"It Can't Be Done."
This week we received an ap-
preciated letter from J. H. Bode,
editor of the Democrat, St. Charles,
in which he gives some
good advice, and advice which
experience has not only taught
us, but has taught thousands of
others in the newspaper busi-
ness, and that is: the newspaper
that stands for right, justice,
fairness and economy in the ad-
ministration of governmental af-
fairs is black listed, branded a
kicker, knocker, etc., and is
made to suffer, to the extent, if
possible, its business will be de-
stroyed and it will be put out of
the way. We have long been
making up our mind, out of sheer
self protection, of adopting the
rule of letting the world take
care of itself. We have often
heard people wondering why
certain newspapers did not do
"this and that" by way of calling
attention to and correcting cer-
tain evils. The reason is: the pa-
pers referred to cannot afford it;
they are intimidated and afraid;
they cannot stand the loss that
would be inflicted upon them by
the political bosses. Today, in
the federal government, as well as
state, county and municipal, mil-
lions of dollars which the people
are taxed to pay are being use-
lessly squandered and fed out as
political patronage and reward,
and the newspaper that dares to
protest is forthwith black listed
and made to suffer. So, in the
language of our friend, they all
learn, sooner or later, that it is
best to "keep quiet and saw
wood."

On account of a diphtheria
scare school was closed on Tues-
day of last week, as was also the
Dorris Theatre. The board of
aldermen met and acted, how-
ever, and ordered "that the
city of Hayti be quarantined,"
which order remained until Tues-
day of this week, when the board
met and rescinded the order. As
to diphtheria, however, it might
be remarked that this country is
not susceptible to some diseases
to any great extent, and such
diseases are not usually in their
most malignant form, though
now and then we have typical
cases, and sometimes deaths are
very sudden and violent. At
best diphtheria is so terrible and
little lives are so precious that
every precaution should be tak-
en to prevent the spread of the
disease, and the quarantine
should be very thorough and
systematic and rigidly adhered
to. The people, in general, have
been extremely cautious, and it
is hoped that the crisis is passed.

Geo. Roper of Senath was here
Saturday, this being the first
time he has been in our city
since it was started, about nine-
teen years ago, and he was agree-
ably surprised. He was one of
the first business men in the
town, doing business in a frame
building on the north side of the
square, where the Sanders Bros.
brick now stands. Mr. Roper
did not see any old landmarks
he could identify.

city. The little fellow was 19

where he was called to attend the
funeral of his father, an account
of whose death was given in these

ordered his Herald changed to
to that place, informing us that
he had secured a good position
there, and was doing well.

Catarrh Cannot Be Cured
with LOCAL APPLICATIONS, as they
cannot reach the seat of the disease. Ca-
tarrh is a blood or constitutional disease,
and in order to cure it you must take in-
ternal remedies. Hall's Catarrh Cure is
taken internally, and acts directly upon
the blood and mucous surface. Hall's
Catarrh Cure is not a quick medicine. It
was prescribed by one of the best phy-
sicians in this country for years and is
a regular prescription. It is composed
of the best tonics known, combined with
the best blood purifiers, acting directly on the
mucous surfaces. The perfect combina-
tion of the two ingredients is what pro-
duces such wonderful results in curing
catarrh. Send for testimonials, free.

THE BRICK DID THE TRICK

WHAT OTHERS SAY
You may ship us 25 cases BLACKMAN'S
MEDICATED SALT BRICK. We find all
farmers well pleased with it. We have
handled these goods for several years and
consider it a very superior plan for giving
medicine and salt to stock over the old
method of stock powders or medicated salt
used in feed boxes. CROWDELL & RAND.
